

FEED SUPERVISOR® FINANCIAL ANALYZER

So how much can you save?

If you can...	200 Cow Dairy	400 Cow Dairy	600 Cow Dairy	1000 Cow Dairy
Reduce your clean-up by 4%	\$9,636	\$19,272	\$28,908	\$48,180
Reduce your shrink by 3%	\$7,516	\$15,032	\$22,548	\$37,580
Reduce operator error 20# per load on corn, protein and cottonseed	\$4,540	\$6,059	\$9,088	\$12,118
TOTAL ESTIMATED SAVINGS (PER YEAR):	\$21,696	\$40,363	\$60,544	\$97,878

Notes:

1. Estimated savings data based on current Feed Supervisor® Software user findings. Savings may vary on your dairy.
2. Estimated savings based on ration and ingredient values as illustrated on the right.
3. We do not predict a milk response in this example, however, by providing a more consistent ration, better herd health and enhanced milk production could follow.

<u>Ingredient</u>	<u>Amount Fed</u>	<u>Cost Per Ton</u>
Corn	13.0 lbs.	\$80
Protein Mix	8.5 lbs.	\$180
Cottonseed	4.5 lbs.	\$155
Mineral/Vitamin/Bicarb	1.4 lbs.	\$490
Tallow	0.5 lbs.	\$480
Haylage	37.0 lbs.	\$40
Corn Silage	37.0 lbs.	\$25

Ration is balanced at: 18% C.P., 0.78 Mcal Nel, DMI = 52.85#, % Forage=52.5%

With Feed Supervisor® systems starting under \$5,000 when can we starting saving you money?
